

Post: Senior Civil Engineer

Qualifications & Skills required

- Bachelor's degree in Civil Engineering or related field; Master's degree preferred.
- Professional Engineer (PE) license or relevant certifications.
- Extensive experience (typically 3+ years) in civil engineering, design, and project management.
- Proficiency in CAD software, project management tools, and relevant technical software.
- Strong leadership, problem-solving, and communication skills.

Job Description

1. Lead and oversee civil engineering projects from conception to completion.
2. Provide technical expertise in design, analysis, and construction.
3. Supervise and mentor junior engineers and project teams.
4. Develop project plans, budgets, and timelines.
5. Coordinate with architects, contractors, and stakeholders.
6. Conduct site inspections and ensure compliance with regulations.
7. Review and approve design plans and specifications.
8. Resolve technical issues and provide innovative solutions.
9. Ensure quality control and adherence to safety standards.
